

Partner Referral Recruitment Letter

Dear

We are planning a Human Library event at the library and we would like your assistance in finding a volunteer from your organization who would be willing to talk about their experiences at our event.

A Human Library is a way for people to reach out and connect with individuals in their community that they might not come across in their daily lives. Such events promote tolerance, celebrate differences and encourage understanding one conversation at a time in a safe environment. To read more about the Human Library and events that have taken place around the world, please visit www.humanlibrary.org and <http://humanlibraries.org.au/>.

Readers, during a planned event, "borrow" Human Books and engage in conversation with them for a scheduled length of time. Volunteers you suggest will be asked to participate as "Human Books". Participation in our Human Library event can provide you with an opportunity to promote / discuss an issue, belief or experience to / with the general public.

All Books are interviewed and agree to attend an orientation session. I am hoping to get our list of Human Books together as soon as possible to begin promotions. To advertise Human Book titles, I will work with your volunteer(s) to write up a Book "title" and "book jacket" summary of the experiences and beliefs they might share with Readers.

Please let me know whether or not your organization can assist us. If you are not able to assist us perhaps you could recommend another organization.

If you have any questions, please email or call me at the numbers below.

Thank you for your consideration and I hope to hear from you soon!

Sincerely,
