

Genius Hour

What are you Passionate
About?

Answer the following questions to help
generate ideas for your passion
project.

What are some of your current loves? Likes?

*How do you like to spend your time when you are not in
school?*

The page is framed by a yellow border with a black outline. Inside the border, there are 20 lightbulb illustrations arranged in a decorative pattern. Five lightbulbs are at the top, five at the bottom, and ten are arranged vertically on both the left and right sides. The lightbulbs are drawn in a simple, cartoonish style with a yellow glow around them.

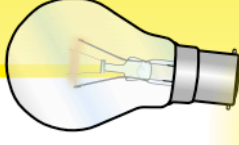

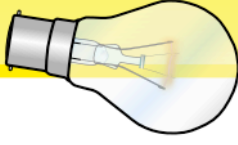

If you could read/learn about anything in the world, what would it be? What do you wonder about?

Now, think about how you can turn your passion into a project to share with the world (or just your classmates).

Use the back of this sheet to brainstorm ideas for a project you can complete in the given time. You will be given one GENTUS HOUR per week and will have approximately 6 weeks to complete your project.

Remember, there are three rules for GENTUS HOUR:

- 1) There must be a research component (and an inquiry question).*

2) *Your question cannot be answered with a simple Google search.*

3) *You must share your project (you can build, design, create, write, etc.)*

For next week:

- 
- 
- *Narrow down your ideas to two possible questions as well as the related passion project idea.*
 - *Talk to your family and friends about your ideas.*
 - *Be prepared to conference with your teacher about your topic. You will not be permitted to begin your research until getting teacher approval.*
